Summary

Driven **Cloud and DevOps** enthusiast with a **BCA** background and technical proficiency in **AWS**, Linux, and containerized environments. Passionate about architecting scalable network infrastructures and implementing CI/CD workflows. Dedicated to professional growth through hands-on initiatives, aiming to deliver robust and secure cloud-native deployment strategies.

Technical Skills

Amazon Web Services (AWS)

- EC2, S3, IAM, VPC, RDS, Lambda, CloudWatch, Elastic Load Balancer (ELB), Auto Scaling, Route 53, CloudFormation, EBS, ECS (Fundamentals), EKS (Fundamentals), DynamoDB, SNS, SQS, API Gateway

Programming

- **Python** (Flask, FastAPI, Django, Pandas, NumPy)

Frontend Development

- HTML5, CSS3, JavaScript, React

Databases

- MySQL, SQLite

Operating Systems

- Ubuntu Linux, Windows

Networking

- TCP/IP, DNS, HTTP/HTTPS, IP Addressing, SSH

Developer Tools

- Git, GitHub, VS Code, Vercel

Projects

AI-Assisted Web Chat Application (CHATRAT) <https://chatrat.vercel.app/>

Technologies: React, JavaScript, Python, Vercel

- Developed and deployed a web-based chat application as a final-year academic project.
- Integrated AI-assisted components and customized application features to meet project requirements.
- Managed deployment using Vercel and verified application functionality through testing.
- Used Git and GitHub for source code management and version control.
- Collaborated on project planning, debugging, and feature integration throughout the development process.

Education

Baba Mastnath University, Rohtak

May 2023 – May 2026

- Bachelor in Computer Applications

Modal Sanskriti SR. SEC. School, Bahadurgarh

April 2022 – May 2023

- 12th, Commerce with Math
